

Phoenix Park Notice

For all those visiting the Phoenix Park, please keep the following general guidance in mind to ensure social distancing protocols are as effective as possible:

- The Walled Garden at the Phoenix Park Visitor Centre has special arrangements in place between 10.00am and 1.00pm daily for the over 70s and the medically vulnerable. Other users should avoid visiting this garden between the above times.
- When passing others we would ask people not to walk two abreast, but instead to walk single file at a safe distance, to allow for maximum social distancing.
- We ask all joggers/runners and pedestrians to slow down when approaching others so you can give them time and space to maintain social distance.
- Joggers/runners should not run within 2 metres of anyone and should consider slowing down when approaching others and leave the footpath safely where the footpath is too narrow to maintain 2 metres separation, in so far as possible.
- Please make way for more vulnerable people who might find it more difficult to alter their route for example people with disabilities, people pushing prams and buggies, people minding children, etc.
- Avoid crowds and crowded places.
- Please refrain from parking vehicles on footpaths or grass verges to make social distancing easier for pedestrians.

Thank you for your co-operation
